Re: Albion-Sheridan Township Landfill Site

Dear Gene:

This letter is in response to the phone message you left me earlier today asking for another written list of alternatives proposed for the Feasibility Study at this site. On November 24, I faxed you a list of the alternatives for the FS, which we had agreed on at our November 22 meeting, as part of a longer list of agreements reached at the meeting. If you need more detail on a particular alternative, please let me know which one, so I can get that to you right away. As is indicated on the schedule I faxed to you earlier this week, we will also be sending you a list of proposed ARARs for these alternatives on December 24, for your review. At this point, we just need to know whether you consider the remedial alternatives sufficient which we agreed to at the November 22 meeting.

On the phone you also indicated that you will need 30 days to review the final RI report. As we have said before, at this site we consider the Phase I Report, which you commented on extensively, to be the draft RI Report. However, I will build the extra time into the schedule for a 30 day review of the final RI Report. I have all of your comments on the Phase I Report and our responses in my file, so feel free to focus your review on new items.

If you have any questions, feel free to call me at (312) 886-4696.

Sincerely,

Leah H. Evison, Ph.D.
Remedial Project Manager
